Global Infrastructure Programme IPA Key Results

The Infrastructure and Projects Authority's International team have led the operational roll-out of the Global Infrastructure Programme (GIP), an innovative £16m aid programme funded by the FCDO's Prosperity Fund.

IPA International has worked with countries such as Indonesia, Colombia, Brazil, Peru, South Africa and Mexico, adapting UK project preparation guidance, providing training, and, in the case of Colombia and Indonesia, helping fund demonstrator projects to showcase these new approaches.

Adapting UK guidance

International versions of the [UK's 5 Case Model](#) and [Project Development Routemap](#) now available.

5 Case Model and Routemap guidance also translated to Spanish and Indonesian Bahasa, and adapted to Colombian and Indonesian contexts

1360 people across **15** countries trained in either or both of the 5 Case Model and Project Development Routemap methodologies.

Training

42% of those trained were women.

Policy Influence

Indonesia: 5 Case Model and Project Development Routemap encouraged in Indonesia's 2021 Government Work Plan, endorsed by the office of the President. 5 Case Model principles also integrated into Indonesian PPP regulation.

Colombia: 5 Case Model and Project Development Routemap endorsed by the office of the Colombian President.

Demonstrator Projects

Indonesia: Collaboration with the World Bank to deliver an Early Business Case and a Routemap for a mass transit project in the city of Bandung, West Java

Colombia: Pre-Investment Fund established in collaboration with the Colombian National Development Bank and the Inter-American Development Bank. The Fund will prepare projects using 5 Case Model and Project Development Routemap principles
